

Blockchain & Solidity Lab4 – Voting dApp Development

S2BC

Lab 4: Run a dApp and Consider Next Steps

- BUILD / TEST / INTEGRATE / **RUN**

So far, you've followed the steps in Labs 1 to 3, gaining valuable insights into the core components of blockchain development. Now, in Lab 4, we will discuss crucial considerations for running a dApp in Morpheus.

1. Run the front end

in voting-dapp-2023/frontend run:

```
node server.js
```

This will start the server for your dApp's frontend.

2. Uploading Your dApp on Morpheus

For detailed steps on uploading your dApp, refer to the [documentation](#).
